# 28.12.2023

# RPB-1PM-...

# bistable - impulse relays

#### RPB-1PM-A230

#### RPB-1PM-U24

- Bistable impulse relays type "ON-OFF", single-function with memory
- Cadmium free contacts 1 CO AC and AC/DC input voltages
- Cover modular, width 17,5 mm
- Direct mounting on 35 mm rail mount acc. to EN 60715
- Working with illuminated momentary bell switches or control buttons  ${\bf 0}$
- Compliance with standard EN 61810
- Recognitions, certifications, directives: RoHS, EMC @ ( [ ] UK

Output circuit - contact	data	<ul> <li>Recognitions, or</li> </ul>	certifications, directives: RoHS, EMC 2 (		
Number and type of contacts		1 CO			
Contact material		AgSnO <sub>2</sub>			
Max. switching voltage		300 V AC / 300 V DC			
Rated load AC1		16 A / 250 V AC			
DC1		16 A / 24 V DC			
Max. make current		30 A			
Rated current		16 A			
Max. breaking capacity	AC1	4 000 VA			
Min. breaking capacity  Min. breaking capacity		1 W 10 V, 10 mA			
Contact resistance		≤ 100 mΩ			
Max. operating frequency • at rated load AC1		600 cycles/hour			
	no load	3 600 cycles/hour			
			3 000 cycles/floui

Function data		057/5555	(1000141)		
Functions		SET/RESET with memory (NORMAL)			
LED indicator		green LED U ON - indication of supply voltage U			

Control contact S provides control of switching ON/OFF of receivers (lighting or other devices) from a few different points, with the use of connected in parallel: illuminated momentary bell switches or control buttons.
 EMC tests (electromagnetic compatibility): EN 55011, EN 61000-4-2/3/4/5/6/11.
 Where the control signal is recognizable.
 Continuous voltage applied between A1, A2, activated with the control contact S.
 Length with

yellow LED R ON/OFF - output relay status

Where the control signal is recognizable. Continuous voltage applied between A1, A2, activated with the control contact S. Length with 35 mm rail catches: 98,8 mm.

# bistable - impulse relays

#### **Functions**

**SET/RESET with memory (NORMAL)** - Switching ON and OFF with memory, controlled by pulses on the contact S.

When a pulse occurs on the control input S, the output relay R is activated (SET). This status lasts until another control pulse occurs - then, the output relay R is switched off (RESET).

Further pulses which will occur on the control input S will change the R contact status into an opposite one.

In case the U supply is interrupted and then switched on again, the R contact of the output relay will return to the status prior to switching the U supply off, and the relay will start operation according to the foregoing function.

#### **Additional functions**

**LEDs**: green U, yellow R - are lit permanently.

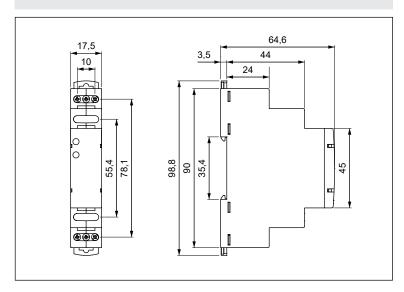

**Triggering**: the relay is triggered by connecting the contact S to the A1 terminal, from connected in parallel switches / control buttons. For DC supply, the positive pole may be connected to the A1 or A2 terminal.

#### Supply:

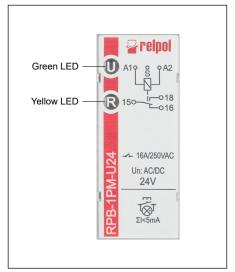

- RPB-1PM-A230: the relay may be supplied with AC voltage 50/60 Hz of 195,5...264,5 V,
- **RPB-1PM-U24**: the relay may be supplied with DC voltage or AC voltage 50/60 Hz of 20,4...27,6 V.

 $\boldsymbol{U}$  - supply voltage;  $\boldsymbol{R}$  - output state of the relay;  $\boldsymbol{t}$  - time axis

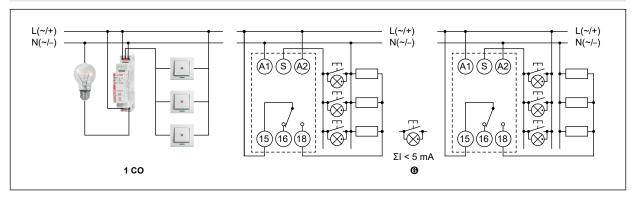

#### **Dimensions**

## Front panel description

## **Connection diagrams**

Note: the indicated polarization of the supply refers only to the relays RPB-1PM-U24. **(9)** If too many illuminated switches are connected, the lighting circuits can be switched on spontaneously or the lights can be switched on permanently.

### Mounting

Relays **RPB-1PM-...** are designed for direct mounting on 35 mm rail mount acc. to EN 60715. Operational position - any. **Connections:** max. cross section of the cables: 1 x 2,5 mm² (1 x 14 AWG), stripping length: 6,5 mm, max. tightening moment for the terminal: 0,5 Nm.

Two catches: easy mounting on 35 mm rail, firm hold (top and bottom).

Mounting wires in clamps: universal screw (cross-recessed or slotted head).

# Coil data - AC 50/60 Hz voltage version

Table 1

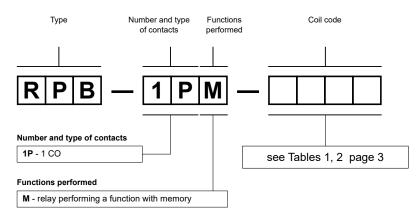

Coil code	Coil code Rated voltage V AC		Coil operating range V AC		
		min. (at 20 °C)	max. (at 55 °C)		
A230	230	195,5	264,5		

## Coil data - AC/DC 50/60 Hz voltage version

Table 2

Coil code	Rated voltage V AC/DC	Coil operating range V AC/DC		
		min. (at 20 °C)	max. (at 55 °C)	
U24	24	20,4	27,6	

#### **Ordering codes**

#### Examples of ordering codes:

RPB-1PM-A230 bistable - impulse relay RPB-1PM-..., single-function (relay perform function SET/RESET

with memory (NORMAL)), cover - modular, width 17,5 mm, one changeover contact,

contact material AgSnO2, coil voltage 230 V AC 50/60 Hz

**RPB-1PM-U24** bistable - impulse relay **RPB-1PM-...**, single-function (relay perform function SET/RESET with memory (NORMAL)), cover - modular, width 17,5 mm, one changeover contact,

contact material AgSnO<sub>2</sub>, coil voltage 24 V AC/DC AC: 50/60 Hz

#### PRECAUTIONS:

1. Ensure that the parameters of the product described in its specification provide a safety margin for the appropriate operation of the device or system and never use the product in circumstances which exceed the parameters of the product. 2. Never touch any live parts of the device. 3. Ensure that the product has been connected correctly. An incorrect connection may cause malfunction, excessive heating or risk of fire. 4. In case of any risk of any serious material loss or death or injuries of humans or animals, the devices or systems shall be designed so to equip them with double safety system to guarantee their reliable operation.
