PRUCT-M with socket GUC11S-VO relays for railroad industry - interface

RUCT-M + GUC11S-V0

- Relays with permanent magnet 0, designed for continuous operation*
- 35 mm rail mount acc. to EN 60715
- Compliance with standards: EN 45545-2 (category EL10, requirement R26 - flammability class V-0 acc. to EN 60695-11-10); EN 61373 category 1, class B (mechanical shock and vibration resistance); EN 50155; EN 60077-1; EN 61810-1
- Recognitions, certifications, directives: recognitions RUCT-M, RoHS,

Contact data CE CIK

Contact data				(£ CIK		
Number and type of	contacts	1 NO (double-brea	k)	2 NO		
Contact material		AgNi				
Rated / max. switching voltage		250 V DC; 250 V AC / 250 V DC; 250 V AC				
Min. switching voltage		5 V				
Rated load DC1 DC L/R=40 ms AC1		16 A / 24 V DC; 1 10 A / 220 V DC	13 A / 110 V DC	16 A / 24 V DC; 9 A / 110 V DC 3,8 A / 220 V DC

The data in bold type relate to the standard versions of the relays. *The relays are designed for continuous operation while maintaining the parameters declared in the data sheet. • The permanent magnet is fixed on the contact plate. Its magnetic field is directed to the contacts and it blows the electric arc which occurs when the DC load is switched off. • For other voltages, please contact Relpol S.A.

Connection diagrams (screw terminals side view)

Mounting

Relays **PRUCT-M** with socket **GUC11S-V0** are designed for direct mounting on 35 mm rail mount acc. to EN 60715. **Connections:** max. cross section of the cables (stranded): $2 \times 2.5 \text{ mm}^2$ ($2 \times 14 \text{ AWG}$), stripping length: 9 mm, max. tightening moment for the terminal: 0,7 Nm.

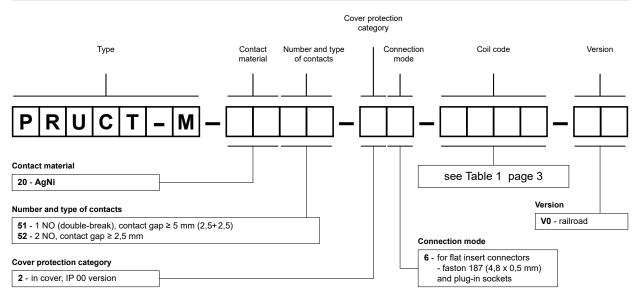

Coil data - DC voltage version

Table 1

Coil code	Rated voltage V DC ❷	Coil resistance at 20 °C Ω	Acceptable resistance	Coil operating range V DC according to EN 50155 ⊚	
				min.	max.
W024	24	345	± 10%	16,8	30,0
W110	110	7 300	± 10%	77,0	137,5

The data in bold type relate to the standard versions of the relays. **②** For other voltages, please contact Relpol S.A. **③** Changes of voltage within the range 0,6...1,4 Un below 0,1 s and changes of voltage within the range 1,25...1,4 Un below 1 s are admissible and they do not distort operation of the relays.

Ordering codes

Examples of ordering codes:

PRUCT-M-2051-26-W024-V0 interface relay PRUCT-M (railroad version) consists of: relay RUCT-M (one

normally open contact, contact material AgNi, reinforced coil voltage 24 V DC),

socket GUC11S-V0 (grey, screw terminals), spring wire clip MBA

PRUCT-M-2052-26-W110-V0 interface relay PRUCT-M (railroad version) consists of: relay RUCT-M (two normally open contacts, contact material AgNi, reinforced coil voltage 110 V DC),

socket GUC11S-V0 (grey, screw terminals), spring wire clip MBA

PRECAUTIONS

1. Ensure that the parameters of the product described in its specification provide a safety margin for the appropriate operation of the device or system and never use the product in circumstances which exceed the parameters of the product. 2. Never touch any live parts of the device. 3. Ensure that the product has been connected correctly. An incorrect connection may cause malfunction, excessive heating or risk of fire. 4. In case of any risk of any serious material loss or death or injuries of humans or animals, the devices or systems shall be designed so to equip them with double safety system to guarantee their reliable operation.
